**RANDALL MANUFACTURING AWARDED SYSCO CORPORATION'S
PRESTIGIOUS PRESIDENT'S AWARD**

Chicago, February 20, 2007 - Randall Manufacturing, a Chicago-based manufacturer of temperature zoning products for the transportation and warehouse industries, was recently awarded Sysco Corporation's President's Award for having achieved the honor of Warehouse and Transportation Operations Supplier of the Year. This is the fourth consecutive year that Randall Manufacturing has been recognized by Sysco for their ability to meet or exceed product and service requirements. Fred Jevaney, president of Randall Manufacturing believes "the award is even more meaningful because Sysco employees vote for award recipients based on a set group of product and service criteria. Our employees work very hard to be the best in class."

Randall Manufacturing is an industry leader in temperature zoning products delivering a complete range of integrated product solutions to the food services transportation and warehouse groups. Their specialty products include insulated bulkheads, center divide systems, strip curtains, industrial curtains, insulated covers, insulated boxes, chutes and flexible, insulated warehouse wall systems and air doors. For more information about Randall Manufacturing, visit their website at www.randallmfg.com.
