## **RANDALL MANUFACTURING INTRODUCES NEW NARROW WALKRAMP**

Elmhurst, IL (May 31, 2013) – Randall Manufacturing announced the addition of a Narrow Walkramp to their Straight Walkramp series. Available now, the RR Narrow Walkramp is approximately one inch shorter in width than the RR Standard Walkramp and fits easily under any straight truck body. The RR Narrow Walkramp is an ideal walkramp solution for straight trucks, especially straight trucks delivering in congested urban settings.

“Food delivery in urban areas is highly competitive, time sensitive, and difficult,” said Fred Jevaney, president of Randall Manufacturing. “Smaller straight trucks are preferred over semi-trailers because they can more easily maneuver tight corners and compensate for inadequate delivery areas; the RR Narrow Walkramp is made for these smaller, more nimble straight trucks.”

The RR Narrow Walkramp is compatible with the RR Lift Assist and can be purchased with an open or closed lid enclosure.

“Meeting drivers needs and helping them deliver safely and quickly is our mission”, continued Fred Jevaney. “The RR Narrow Walkramp continues to raise the bar on safety with its gripping surface, smooth transitions, and tallest side rails in the industry.”

### **Key Features:**

// 24-3/8” usable width

// 6000 series Aluminum alloys

// Grade 8, Cadmium- plated hardware

// Uninterrupted walk surface

// 75% open panel design

// Ergonomic, easy to grip handles

### **About Randall Ramps**

Randall Ramps is a product line of Randall Manufacturing. For over 30 years Randall Manufacturing has been an innovator in temperature zoning products, delivering a complete portfolio of product solutions to the transportation industry- insulated portable bulkheads, center divide systems, insulated pallet covers and containers, strip doors and chutes.

The Randall Ramps line includes Straight Walkramps with or without Lift Assist, Folding Walkramps, and Randall Steps. For product information, visit [www.randallramps.com](http://www.randallramps.com) or call 800-323-7424.
