Randall Access to showcase its Access product line at TMC 2015

ELMHURST, IL (February 11, 2015) - Randall Access, a division of Randall Manufacturing, announces its show lineup for the American Trucking Associations' Technology & Maintenance Council's 2015 Annual Meeting, held February 16-19 at Music City Center in Nashville, Tennessee.

At booth 1651, Randall Access will showcase its latest Access product lines – Straight & Folding Safety Walkramps, its new Elevated Middle Door Platform, Retractable Steps, and 2015 Concept Products – all highly engineered to take on the toughest of environments with features that keep drivers moving safely and efficiently.

Booth visitors can experience the Randall Access product line - its signature, all-weather, gripping walk surface, 6000 series Aluminum alloys and Grade 8, Cadmium-plated hardware - combine to create an Access product line delivers greater safety, performance and control.

“Drivers and fleet managers alike are looking for a line of Access products that not only raise the bar on performance, but also provide drivers with the safest, strongest equipment to get on and off their trailer,” comments Fred Jevaney, president of Randall Manufacturing. “In addition, as an industry leader in temperature control products, we provide the only turnkey solution for superior products temperature control products inside and access products outside the trailer.”

TMC's Transportation Technology Exhibition, held in conjunction with the annual meeting, is the first major truck exhibit of the year. Nearly 400 exhibitors will showcase the latest models of medium- and heavy-duty vehicles, specialty and alternative-fueled vehicles, components, safety, information technology and services.

Among the highlights of this year's meeting are:

- More than 100 task forces creating and updating recommended practices for the commercial vehicle industry;
- "Green Trucks, Green Shops, Green Incentives," a discussion of how to develop and implement an alternate fuel vehicle program;
- "Maximizing Asset Utilization: A Fleet-Service Provider Dialogue," an examination of outsourced vehicle maintenance;
- TMC study group sessions on topics ranging from low-rolling resistance tires to heavy-duty vehicle fuel economy testing;
- An exhibit hall with nearly 400 exhibitors displaying the latest in industry technology, including an Alternate Fuels Pavilion providing one-stop shopping for the fleet executive who wants to quickly get up to speed on all segments of the alternative fuels market; and
- Featured speaker Donald Broughton, chief market strategist for Avondale Partners, providing a "bottoms-up" differentiated dissection of the U.S. economy and financial markets.

###

About Randall Manufacturing & Randall Access

Randall Manufacturing is a leading manufacturer of temperature control products within refrigerated trailers, warehouses and facilities across the country. What started with its flagship insulated bulkhead line has grown into the most extensive temperature-control product portfolio for the logistics and warehouse industries.

Randall Access, Randall Manufacturing's newest division, offers a full portfolio of trailer access products including Straight and Folding Safety Walkramps, Middle and Front Door Platforms, and Retractable Steps for delivery vehicles.
