WHAT ARE THE NEXT GREEN BUILDING TRENDS?

NEW Q & A BLOG SERIES: DESIGN-BUILD EXPERTS DISCUSS TRENDS

Elmhurst, IL (August 14, 2013) [LEEDing Questions](#) is Randall Manufacturing's new Q&A blog series featuring three industry leading design-build firms – AM King Construction, ESI Group, and Hansen-Rice.

“Our vision is to bring together experts in our design-build community to share their thoughts and experience on GREEN building trends,” said Todd Jessup, warehouse territory manager at Randall Manufacturing. “We at Randall Manufacturing recognize the importance of building GREEN – as well as the associated challenges. There is no better way to learn the goings-on in the industry than from those at the forefront of GREEN design.”

Randall's [LEEDing Questions blog series](#) will debut on Wednesday, August 14th with an AM King Construction Q&A interview. The second interview on Wednesday, August 21 features ESI Construction; the third interview on Wednesday, August 28th features Hansen-Rice.

“Understanding GREEN building through the eyes of these design-build firms is exciting. We are looking forward to sharing their views with the marketplace,” continued Todd Jessup.
