RANDALL MANUFACTURING INTRODUCES ITS OWN LINE OF INDUSTRIAL AND NOISE CURTAIN WALLS

Elmhurst, IL (March 21, 2013) Randall announced today the expansion of their flexible, modular curtain wall product line to include Industrial and Noise Curtain Wall solutions, available immediately. Industrial and Noise Curtain Walls effectively and quickly divide warehouse and work spaces while protecting employees and the work environment from harmful noise levels, environmental contaminants, and the outside elements.

“Expanding our product line to complement our industry-leading, insulated curtain wall - InsuWall® - provides us with a greater ability to meet the needs of facility and warehouse managers,” said Kristine Grudis, warehouse territory manager. “Having a full line of insulated, non-insulated and noise curtain wall options means that we can provide a flexible, modular wall solution to nearly any warehouse space challenge.”

Randall Industrial and Noise Curtain Walls meet requirements for flame resistance:

- Randall Industrial Curtain Walls meet California Fire Marshal, NFPA-791, and ASTM E84 Class A standards.
- Randall Noise Curtain Walls meet Class 1 flammability rating (per ASTM E84).

“We are proud to offer premium, customizable, Made in the United States, insulated and non-insulated curtain walls,” said Fred Jevaney, president. “With the addition of Industrial and Noise Curtain Walls, Randall is now a one-stop shop for curtain wall solutions – with our experienced sales team, our in-house engineering and design team, and our network of installers.”

Key Features

Randall Industrial Curtain Walls

- Meets Fire Marshal standards
- Manage and protect work areas quickly and economically
- Easy to design, install and maintain
- Variety of vinyl, pvc, mesh and anti-static materials available
